POLISHED FINISH

A close-up photograph of large, square, white tiles with a highly reflective, polished finish. The tiles are laid in a grid pattern, and the surface reflects light, creating a bright and clean appearance.

DOLPHIN

MARFIL
TILES 

A wide-angle view of a modern interior space featuring a highly reflective, polished floor. The room includes a white reception desk, a dark wood cabinet, and two beige armchairs with black frames. A large potted plant is visible near a window on the left. The floor's high gloss creates clear reflections of the furniture and walls.

POLISHED | MATT FINISH

A closer view of the same interior space, but with a matt finish on the floor. The floor is a light grey color and has a subtle, non-reflective texture. The furniture and decor are the same as in the top image, but the reflections are absent, giving the space a more understated and contemporary feel.
